Sisters, OR

Date: February 1, 2018

## ***US Highway 20 & Barclay Drive Roundabout Art***

On Thursday, February 1, 2018 the top three artists, previously selected by the Sisters Art Selection Committee, presented scale models of their Art Proposals to the Oregon Department of Transportation (ODOT), the City of Sisters and the Art Selection Committee.

The top three Artists and Art Proposals are:

- John Fleming from Seattle, WA & Jeff Wester from Sisters, OR with “Butte”
- Danae Bennett Miller from Tumalo, OR with “A Land of Contrasts”
- Roger White Stoller, from Portola Valley, CA with “Mountain Helix”.

The Sisters community has the opportunity to view and comment on the models, which will be on display at City Hall for a two week period, between Friday, February 2, 2018 and Friday, February 16, 2018.

The Art Selection Committee, with input from the public viewing, will then make a recommendation to the Sisters City Council on February 28, 2018. The City Council will make the final selection of the artist(s) and artwork design concept, approved through a majority vote.

The winning art proposal will be a permanent installation in the center of the US Highway 20 & Barclay Drive roundabout. The art installation is projected to be completed by fall of 2018. The project is fully funded by a Federal Lands Access Program Grant (FLAP).
